Our Imprints

Grades K-1

Bearcub Books are expertly crafted to help emergent readers foster a love for reading! Each book features carefully leveled text paired closely with bright, captivating photos, making it easy for children to follow along and gain reading confidence.

To assist educators, each book has been carefully reviewed by a reading specialist and also includes a “Teaching Tips” section to engage readers before, during, and after reading.

Grades K-3

Fusion Books introduce beginning readers to the wonderful world of nonfiction. A mixture of illustrations and photographic images invites readers to explore the world around them as they transition into nonfiction reading. Simple and clear text that is suitable for beginning readers introduces fun, factual, and engaging content to invoke curiosity about everyday life—from the wild and wacky to the downright gross.

Grades 2-6

Bear Claw Books are a bold and graphic way to keep readers turning the pages on nonfiction content. Colorful graphic illustrations bring exciting narrative nonfiction to life while engaging backmatter materials provide further context for the shocking true tales. An excellent resource for reluctant readers or anybody who loves a good story!

Grades 2-6

Create! Books go hands on with learning! Simple, step-by-step instructions and large, full-color photographs guide readers through activities and projects that engage their minds and their maker muscles. Projects specially designed with children in mind make curriculum topics approachable for all types of learners—and help them have fun along the way!

Grades 2-7

SilverTip Books reaches upper elementary, middle school, and ELL students struggling to access core curricular topics at reading level. The high-interest design and tone speaks to an older audience while a clear format and 2nd-3rd grade reading level brings them up to speed with their fellow classmates in a clear and concise way. **Dyslexic-friendly font and design** keeps accessibility top of mind while featured SilverTips for Success help readers review what they’ve learned and prepares them to ace their next test. The entire SilverTip experience is designed with student success in mind!

Grades 3-8

Bearport Books are high-interest, visually appealing books that focus on fun and unusual topics that readers love. Trade-like design, using a combination of both photographs and illustrations, and playful titling are what distinguish us in the K-8 educational market. For over 15 years Bearport has been creating books that feel less like supplemental texts and more like the books children really want to read.

Why Does My Body Do That?

Cough! Burp! Sniff! Our bodies make many sounds. But what do all these sounds mean? Explore the wild, wacky, and (sometimes) downright gross things our bodies do. From burps to coughs, scabs to the shivers, engaging STEM topics with clear text and bright photos makes science fun. A simple infographic refreshes the content for visual learners as they finish flipping through the body books they won't want to put down.

How Awesome Can You Be?

It's time to step up to the challenge. How awesome can you be? Follow along on the path for good as young readers learn key character traits with bright photos and carefully leveled text. Examples from the child's world help put early life skills curriculum in context while a back matter activity further engages readers in kid-led projects to build their social skills. Let's help kids be even more awesome!

One day, Ruth tried making chocolate cookies.
She put chocolate pieces in dough.

A Tasty Accident

It is fun to eat ice cream from a cone.
Yum!
How did this tasty **invention** happen?

Say invention like in-**VEN**-chuhn

Past and Present

Take a trip through time to explore how people of the past lived. The history of everyday items and places encourages comparing and contrasting while an invitation to make predictions about the future engages further exploration. In addition to a broader history of the progression over time, supplemental details take a closer look at a specific topic within each title category. Perfect for prompting readers to take a fresh look at the world around them!

Long ago, people used art to say things.
Some made pictures.
Others danced and told stories out loud.

Chug, chug!
Trains began crossing land in the 1800s.
Steam **engines** let them move fast!
People rode trains to go places quickly.

Hello, Summer!

It is time for summer fun.
The sun is shining.
It is hot outside.
Let's go find some fun things to do!

My sister is on a softball team.
She is the **pitcher**.
It is her turn to throw the ball.
And my sister throws it really fast.
Whoosh!

Poet to a President

It was a big day for
Amanda Gorman.
She stood in front of the
new president.
Amanda read her **poem**.

Simone fell in love with
gymnastics.
She worked very hard.
And she was good.
Simone started
winning **medals** when
she was 14.

Kamala was the first
woman to get the job.

Read and Rhyme Levels 1, 2, and 3

It's time to read and rhyme! These three series introduce young readers to word families through fun and quirky rhyming stories. Each book features 6-10 words from the same word family to reinforce sound and letter combinations. The expertly crafted text uses rhyming patterns along with strong picture cues to help emergent readers get the reading practice they need.

What's Up With Water?

Every living thing on Earth needs water to survive. But why do we need it, where does it come from, and how do we save it? This valuable series answers these questions and more while introducing early science concepts to emergent readers. Vibrant photographs and diagrams will aid readers in learning about the water cycle, how people use water, and what that means for the environment.

That's Not a Dino!

With sharp teeth, giant bodies, and terrific tails, dinosaurs once ruled the planet. But they weren't alone! Travel back in time on an adventure to find out all about creatures that lived alongside (but were not) dinos. Real fossil photos alongside captivating illustrations of dinosaurs make for a roaring good time for dino lovers and budding scientists alike.

Eco Journeys

When we throw a glass jar, plastic bottle, or soda can in the trash, it goes straight to the landfill. But if we take another simple step, there could be a new life awaiting each item. When we recycle, we go on an eco journey as items get turned into something new. Help save the planet and learn all about how small actions can have big impacts!

Farmer Llama's Farm Machines

Now hiring new farmhands! Aggie, your farmer llama friend, is here to teach you everything you need to know to get the job done at Happy Valley Farm. Farmers feed the world. But with seven billion people to feed, how do they get the job done? Let Aggie be your guide as you learn the basics (the history of hay) right through to advanced lessons (just stay out of the way of the self-driving tractors . . .), and don't forget to get your llama-diploma! Cute illustrations and photographs help readers learn about different machinery and the history of farming.

Deconstructed Diets

Take a look at a burger, peer at a pizza, and sniff at your sandwich. Do you know what's inside? How about what your food is made of and where it comes from? Let's deconstruct dishes, break them down, and slice them up to find out what they're made of and if they're good for us! This series is a fun mix of illustrations and photographs that introduces readers to nutrition and health concepts as well as exposing them to food from around the world.

Once Upon a STEM: The Science of Fairy Tales

Have you heard the story of Jack? You know, the one where he plants the magic beans and a giant beanstalk shoots up into the sky. Have you ever wondered what a scientist would make of that beanstalk? Well, wonder no longer because Professor Everafter is here, and he is going to put these fairy tales under the microscope.

Rescued! Animal Escapes

When disasters strike, people aren't the only ones in danger. Tornadoes, hurricanes, fires, and more also threaten the lives of animals. In this graphic narrative nonfiction series, readers meet heroes who risk their lives to save animals—from cats and dogs to pelicans and pigs! As readers relive the dramatic events surrounding famous disasters, such as Hurricane Katrina and the Deepwater Horizon oil spill, they will witness the courageous rescue attempts that saved the lives of thousands of innocent pets and wild animals. Backmatter includes information about other devastating disasters and daring missions to save animals.

Animal Diaries: Life Cycles

This fresh approach provides a firsthand perspective on the development of animals that includes the entire life cycle as well as the animals' natural habitat, diet, and behavior. Bright photos and diagrams and clear, age-appropriate text will engage young readers, while the diary format models scientific observation and critical thinking—and encourages children to keep notebooks recording their own investigations into the natural world.

Climate is the usual weather found in a place, from how much rain it gets in a year to a change in temperature during a certain month or season. Earth's climate is always changing, but what does that really mean? Let's investigate the problem of climate change and explore its impact on our planet, the animals around us, and ourselves. Readers will learn the problems of the present, what they might face in the future, and what they can do to help.

Life on Earth! Biodiveristy Explained

From the ocean to the forest floor, living things are in danger. Explore the importance of biodiversity and the current threats against the plants and animals that are key to the survival of entire ecosystems. Investigate and explore the impact of a loss of biodiversity on our planet, the direct effects on animals around us, and how it could negatively impact humans. Readers will learn the problems of the present, what they might face in the future, and what they can do to help all life on Earth.

FUN-damental Experiments

Each title in this series gives young readers the opportunity to conduct real experiments and investigations with minimal assistance from adults. Books include at least seven fun experiments that take young readers step-by-step from an intriguing question, through an investigation, and finally to drawing their own scientific conclusions. Visually dynamic layouts and images will inspire young scientists!

X-treme Facts: Engineering

Have you heard of the dam so massive it actually added a fraction of a second to every day? Or seen the bridge that literally disappears below the ocean? Explore these extreme feats of engineering and more through an engaging design and lively text written with a sense of humor. A hands-on activity at the end of each book brings learning about engineering concepts to life. This series features STEM curriculum made fun and is especially wonderful for reluctant readers.
