BLIZZARDS

Snowflakes fall from
the sky.

Soon, strong winds
begin to blow.

A **blizzard** is coming!

Snow is made up
of tiny bits of ice.

During a blizzard, winds blow 35 miles per hour (56 kph) or more.

Swoosh!

Wind blows the snow
all around.

The swirling snow
makes it hard to see.

IT'S A
DISASTER!

BLIZZARD

Heavy snow falls from the sky as the wind blows. The snow swirls around and around, making it impossible to see. A blizzard is coming!

Look inside to discover more about these terrifying storms, including what happens when they strike, what causes them, and how to stay safe from their icy blasts.
