What's this weird  
but cute animal?

LARGE  
ears!

It's an  
**aye-aye**  
(EYE-eye).

A close-up photograph of a squirrel with bright yellow eyes and long, thin fingers, perched on a bamboo stalk. The squirrel's fur is a mix of brown and tan, with long, thin hairs. Its eyes are a striking yellow color. The background is a blurred green, suggesting a natural habitat. The text "Yellow eyes!" is overlaid on the image, with "Yellow" in white and "eyes!" in yellow. The text "Long fingers!" is also overlaid, with "Long" in white and "fingers!" in white. The number "5" is in the bottom right corner.

Yellow  
**eyes!**

**Long**  
fingers!

Where in the world do these odd animals live?

Aye-ayes are found only in Madagascar.

They live in thick forests.

Madagascar is a large island. It's part of Africa.
